DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, and 8-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Ogg (6,290,615). Regarding claims 1 and 2, Ogg discloses a golf ball comprising a spherical surface with raised ridges forming noncircular polygonal shapes. Some of the ridges do not contact other ridges. Regarding claim 3, a smaller noncircular ridge is located inside/outside the first noncircular polygon. See figure 9 where two polygons are adjacent. Regarding claim 5, Ogg further discloses a linear ridge located outside the non-circular shape. Regarding claims 8 and 9, the top of the ridge is arcuate and has a radius from 0.695 to 0.889 mm (0.0275 to 0.0350") (col. 6, lines 28-31). Regarding claims 10 and 11, the ridge and dimple has a height/depth of 0.178 or 0.229 mm (col. 6, lines 5-15). Regarding claim 12, the polygons are arranged in a polyhedral pattern. Regarding claim 13, ridges extend along the equator (col. 6, lines 39-40).

Response to Arguments

Applicant's arguments filed 5-20-05 have been fully considered but they are not persuasive. Applicant claims a surface comprising a plurality of independent non-

Art Unit: 3711

circular shapes and states the prior art, Ogg, does not disclose this feature. However, the claims as currently written are broad enough to include the invention of Ogg.

Please note the term "adjacent" in the claim does not define a certain distance.

Applicant's arguments with respect to claims 14 and 15 are not persuasive. The claims are directed to a different embodiment (fig 6) and will not be examined.

Allowable Subject Matter

Claims 4, 6, and 7 are allowed

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
